PROFILE

Aspiring Data Analyst with skills in **SQL, Excel, Power BI, and Tableau**, developed through personal projects, coursework, and virtual job simulations. Passionate about using data to solve business problems and continuously learning new analytical skills.

EDUCATION

Bachelor of Commerce (Honours), *Jogesh Chandra Chaudhuri College* 2021 – 2025
Class XII, *Budge Budge St. Pauls Day School* 2020 – 2021

PROJECTS & VIRTUAL JOB SIMULATIONS

Healthcare Risk Analysis Dashboard | Power BI

- Cleaned and transformed a healthcare dataset using **Power Query**, handling missing values, data type inconsistencies, and data quality issues.
- Created **DAX measures** and interactive dashboards to analyze patient health metrics, including heart attack, stroke, smoking, and exercise risk.
- Developed KPI cards and visualizations to monitor patient demographics, health risk categories, and diagnosis trends.
- Used filters and slicers to enable interactive analysis and improve reporting of healthcare insights.

Deloitte Data Analytics Virtual Job Simulation

- Completed a virtual job simulation involving data analytics and forensic technology.
- Created an interactive Tableau dashboard to visualize business data and identify trends.
- Used Microsoft Excel to analyze data and draw business insights.

Tata GenAI Data Analytics Job Simulation

- Completed a virtual job simulation involving AI-powered data analytics for Tata iQ.
- Performed exploratory data analysis (EDA) using Generative AI tools to assess data quality and identify risk indicators.
- Developed a no-code predictive modeling approach and proposed AI-driven business solutions.

Tata Data Visualization Virtual Job Simulation

- Completed a virtual job simulation focused on creating business data visualizations for Tata Consultancy Services.
- Prepared data-driven questions and insights for a simulated client leadership meeting.
- Designed visualizations to support business decision-making and communicate analytical findings.
